Enough Time

By James Pinhorn

You can have enough money
You can have enough love
You can have enough faith in the heavens up above
You can have enough sun on the horizon when it shines
But the one thing you can't have enough of

You can enough things
You can have enough touch
You know that much wants more
And we can have surely enough
You can have enough joy
You can have enough trust
But the one you can't have enough of

You just can't have enough time
You just can't have enough time
Time to tell them the people that you love

Cause time ticks on,
like the beating of your heart
And time ticks on
You must always do your part
You gotta open up
won't you tell 'em how you feel
You gotta pick up that phone,
Cause you don't you be alone.

You can have enough music
Enough flags unfurled
You can have enough power to control all the world
But in the end it is coming for you
Just like all the rest
Cause the way has been shown,
Take care of your own

You just can't have enough time
You just can't have enough time
Time to tell them the people that you love
Tell 'em just how much they're thought of
Come on and tell the people that you love
While there's still time.
